

Fire Training

All new recruits are required to obtain 240 hours of initial training.

Our drivers are required to obtain 60 hours of driver's training before driving our apparatus and 12 hours annually of continued training.

We conduct 192 hours of company training per year over various topics and incidents, 18 hours of drill field training, and six hours of continued hazmat education training. We strive to provide the highest level of service to our community, and to do this, we must continuously train. Our members are very dedicated to the community and devote countless hours training to provide the best protection.
